Organic Alpaca Duvet Collection

Hand Made to order, our Alpaca duvets are filled with Alpaca fibre and produced using natural materials that are free from chemicals.

They are perfect for creating a healthy, natural and chemical free sleep environment providing relief to allergies such as Asthma.

The 100% organic Alpaca fibre has been processed in the UK and encased in 100% organic cotton cover using a unique stitching to allow maximum airflow.

The Alpaca fibre filling helps maintain a constant body temperature preventing waking due to overheating or feeling too cold at night.

We do not recommend duvets and pillows for babies under 12 months old.

Organic Alpaca Wool Duvet Collection:
