The Capri Stripe 300 thread count Egyptian Cotton sateen hotel bed linen collection features a range of fabulous quality flat sheets, fitted sheets, duvet covers and pillowcases.

The stripe duvet covers have a tuck in finish at the hem instead of buttons which makes it suitable for commercial laundries. The 300 thread count cotton sateen is a lovely smooth fabric, woven from a slightly thicker yarn than generally found on the high street, making it a superior quality and robust enough to withstand industrial laundering.

Manufactured using special yarns this bedlinen offers great durability and strength giving this product an excellent performance rating when tested for industrial laundering.

The Capri Stripe is a classic design found in some of the Best Hotels in the World and is also a popular Wedding List item.
