### Supreme Hungarian Goose Down Pillow Gold Collection

Our goose down pillows are of the finest quality and are filled with 100% new white goose down producing a soft pillow with loads of bounce-back. It's just the thing for sinking your head into.

The filling consists of large, generous clusters that create air circulation - that provides temperature regulation and a light, soft texture. The casing is a 420 thread count down-proof cotton sateen beautifully finished with piped edges.

We do not recommend duvets and pillows for babies under 12 months old.
